## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

APPLICANT: GRUNDLER, Christoph; GRUNDLER, Markus; HEINE, Daniel

SERIAL NO.: 10/531,058 ART UNIT: 4177

FILED: January 17, 2006 EXAMINER: Stuart, C. W.

TITLE: DEVICE AND METHOD FOR TEMPERING AND HUMIDIFYING GAS, ESPECIALLY RESPIRATORY AIR

## Amendment C: SPECIFICATION AMENDMENTS

On page 16, revise paragraph [0082] as follows:

The heated gas <u>fluid</u> leaves the annulus 7 via a sieve bottom 8 into a sprinkling type chamber 9 filled with filling material 10. In this exemplary design, the filling is made of solid structured elements inheriting a huge suitable and a large cut-outs.
